Summer Math & Reading Fun

Parents,

Math fact fluency is a critical skill in second grade. It is crucial that students are fluent with addition and subtraction facts to 18, as it will enable them to focus on gaining a deeper understanding of math concepts. Students have built a foundation of math facts in first grade. Please practice addition and subtraction facts to 18 weekly.

Reading is also very important to your child's development. Please encourage your child to read this summer. It is equally as important for your child to be read to. Here are some books suggestions for your summer reading fun. Read on!
